states: 876.01 Criminal anarchy, Communism, and other specified doctrines; advocacy prohibited.

Criminal anarchy, criminal Communism, criminal Nazism, or criminal Fascism are doctrines that existing form of constitutional government should be overthrown by force or violence or by any other unlawful means\*, or by assassination of officials of the Government of the United States or of the several states.

\* Lies and fraud are unlawful means."

Any legislator or public official practicing communism is committing treason and "shall be guilty of a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084. " (punishment is jail time and a fine.)

**THE NORTH AMERICAN DREAM (NAU) Theirs, Not Ours!**  
By Diane Kepus - [AMERICA IS MY NAME - HOME](#)

Americans continue to discover more and more players and schemes in bringing down America. Call it what you will North American Union (NAU), North American Trade Free Trade Agreement (NAFTA), New World Order (NWO), CETA, NASP, TPP or just simply TREASON - and all of the previous listed are simply the road to a New World Order.

There are still many Americans who need to learn about the back-room deals which are linking them with chains, to every aspect of their lives forever to be controlled to those who consider themselves the “holier than thou elite”.

If you doubt my words, I suggest you read “[After America Comes North America](#)” with disgraced former General Petraeus boasting at the Margaret Thatcher Conference on Liberty, in response to a question about what comes after the United States.

The “highly integrated” forces of Canada, the United States, and Mexico, Petraeus continued, will become the world’s powerhouse for energy and science. “There are four revolutions that are ongoing at various levels in each of the countries but foremost in the United States,”

Have you noticed they already have the EU in place the fact that it isn’t doing so well - should be taken into consideration also?

Last year Obama used his pen on one of the many UNCONSTITUTIONAL Executive Orders that seeks to “harmonize” U.S. economic regulations with the rest of the world.

This new executive order is yet another incremental step... that is pushing us closer to a North American Union and a One World Economic System.

Outside of Obama being a communist and a colonialist, he is a committed

**GLOBALIST.** He firmly believes that more “global governance” (the elite don’t like to use the term “global government”) will make the world a much better place. His whole time in office, Obama has consistently sought to strengthen international institutions such as the UN, the IMF, the World Bank and the WTO.

Since he was elected, Obama has signed a whole host of new international economic agreements. He regularly speaks of the need for “cooperation” among global religions and once stated, “all nations must come together to build a stronger global regime”.

Most Americans have absolutely *no idea*... how far plans to integrate the United States, Canada and Mexico - have advanced.

In 2011, Obama signed an agreement to create a “[North American security perimeter](#)” and most Americans never even heard about it, because the mainstream news networks almost entirely ignored it.

There has been a Mexican customs office built in Kansas City, which is to be the SmartPort overseeing the rail transportation of goods from Asia to Lazaro Cardenas, Mexico at a cost of \$3M to U.S. taxpayers.

Shipments will be pre-screened in Southeast Asia, and the shipper will send advance notification to Mexican and American Customs with the corresponding “pre-clearance” information on the cargo. Upon arrival in Mexico, containers will pass through multiple X-ray and gamma ray screenings, allowing any containers with anomalies to quickly be removed for further inspection.

*Do you Trust Mexico?*

The Mexican trucks will cross the border in FAST lanes, checked only electronically by the new "SENTRI" system.

Container shipments will be tracked using intelligent transportation systems, or ITS, (RIF) that could include global positioning systems or radio frequency identification systems, and monitored on their way to inland trade-processing centers in Kansas

City and elsewhere in the United States. The Kansas City SmartPort website boasts:

"Kansas City offers the opportunity for SEALED CARGO containers to travel from Mexican port cities - with virtually NO BORDER DELAYS, and to return.

Longshoremen WILL NOT BE EMPLOYED at the port of Lazaro Cardenas, and, in Mexico, the employees of Kansas City Southern WILL NOT BE United Transportation Union workers.

To the extent that Mexican trucks become involved in the operation, it would mean Teamster Union drivers WOULD NOT BE EMPLOYED in the operations.

In fact, it will be taking a considerable amount of traffic from the West coast.

Kansas City SmartPort Inc. is an "investor based organization supported by the public and private sector" to create the key hub on the NAFTA Super Highway.

Still believe Wikileaks was wrong in spilling the beans?

A document uncovered by Wikileaks shows that those involved in the effort to integrate the North America (NAU) believe that an "incremental" approach is best. Apparently, they believe that small moves toward integration are less likely to alarm the general population. Keep them deaf, dumb and blind...and they'll never know what hit them!

Obama as America's Russian-trained lap dog, in February 2014 he attended the North American Leaders' Summit Meeting at Tuloca, Mexico, which is the successor to the [Security and Prosperity Partnership of North America](#) (SPP) that was launched by President George W. [Bush](#).

(The Security and Prosperity Partnership of North America was written by the Hudson Institute (Christopher Sands) and the Univ. of Alberta (Greg Anderson).

Any doubt in your minds now that the BUSH dynasty - *is part and parcel* - involved in the New World Order?

I don't care what political party you *THINK* you support, if you want to retain your country as America...

**YOU BEST WAKE UP!**

The U.S. government has housed within the Department of Commerce (DOC) an "SPP office" that is dedicated to organizing the many working groups laboring within the executive branches of the U.S., Mexico and Canada - to create the regulatory reality for the Security and Prosperity Partnership.

Security and Prosperity Partnership  
of North America

It is a process of technical negotiations on economic and security rules and regulations conducted by working-level counterparts in the governments of the United States, Canada and Mexico. It was launched in March 2005 at a summit (hosted by President George W. Bush in Waco, Texas.)

Forces within the Democratic Party seeking to protect jobs, held back Obama in his daylong meeting with Mexican President Enrique Peña and Canadian Prime Minister Stephen Harper. According to the LA Times, Obama and his two North American counterparts "made little progress in boosting their ambitious plans to ease borders and expand into new frontiers."

The setback came as congressional Democrats representing the interests of big labor unions succeeded in blocking a Democratic-controlled Senate in cahoots' with GOP congressional leaders seeking to serve multi-national business interests from granting the Obama administration fast-track authority to push through Congress

without debate or amendments anything regarding the Trans-Pacific Partnership (TPP).

The TPP is a massive 12-nation global trade pact that which has been designed to supersede NAFTA. And let us not forget the Transatlantic Trade and Investment Partnership (TTIP).

They told us the TPP *was for better security against potential terrorist attacks*, but what it does is OPEN the Borders...

*from the Yukon to Yucatan.*

Now you know why...*Nothing has ever been done...*

About *Securing the Border* between the U.S. and Mexico.

You *can't* have CLOSED BORDERS...with the NAU.

The Comprehensive Economic & Trade Agreement ([CETA](#)) began in 2009 which is a free trade agreement between the EU and Canada and far more reaching than NAFTA.

Let us not forget for one minute that NAFTA has, since its inception, been one of the main tools being used to bring America to her knees. Carnegie's Marc Tucker took care of matching training to needs with his [Human Resources Development Plan for the United States](#), developed by the National Center for Education and the Economy which was unveiled in 1992.

Whether you liked him or not, Ross Perot made a statement in 1992 - before NAFTA was even ratified, warning "You're going to hear a giant sucking sound of jobs being pulled out of this country. Lower-cost Mexican workers will replace middle class America."

NAFTA proponents *promised* tens of thousands of newly created jobs.

Small farmers would export their way to wealth. Mexican living standards would rise. Economic opportunities would reduce regional immigration to America. All the promises made never materialized. Reality disproved hype. It does it every time.

Ideologues praising NAFTA were exposed. They're all frauds. They're discredited liars.

However they are doing it again, selling the similar Trans-Pacific Partnership (TPP) snake oil. It's NAFTA on steroids.

*Where was Governor Perry?*

They used *eminent domain* - to steal property to build this massive 10-Lane highway (5 lanes each direction).

Cheap South American, Chinese and Mexican merchandise will come from the open ports on the Pacific coast of Mexico - in loaded trailers.

Each trailer will have a pre-authorized radio chip in it, giving that trailer prior authority to drive all the way to the Yukon - if it chooses - with absolutely NO INSPECTION of the cargo.

*Drugs, Goods, Illegals, Human Trafficking...*

*- YOU NAME IT -*

there will be NO Border Checks!  
The widening of the Panama Canal is all a part of this deal.

**David Rockefeller and the labor wing of the Republican Party “globalists” are behind this. The push here will be Mexican jobs not American jobs. This is not to bring jobs to America it is to destroy the Middle Class and at the same time infuse this country with illegals and drugs. The far left of the Democratic Party are against the TPP because of the effects it will have on the workers and thus fewer funds for the unions.**

**In the 1993 Annual report of the Heritage Foundation celebrating their 20th year celebration, the following was revealed: The idea of the North American Free Trade Agreement (NAFTA) originated with Heritage Fellow Richard Allen and has long been advocated by Heritage policy analysts.**

**The idea of creating a North American free trade zone from the Yukon to the Yucatan was first proposed by Heritage Distinguished Fellow Richard Allen in the late 1970s, refined by then Presidential candidate Ronald Reagan, and further developed in a major 1986 Heritage Foundation study.**

**The power elite simply ordered their puppets in the White House and Congress to approve NAFTA and GATT - even though an overwhelming majority of Americans opposed both. Then through globalization, they sent manufacturing jobs overseas, outsourced high-tech jobs, and imported guest workers to perform lower-skilled jobs. Once again, wallets over the American people.**

**In 2011, Obama made a “stand alone deal” (himself with the pen) with President Felipe Calderon, president of Mexico, to allow Mexican trucks to carry their loads onto U.S. highways and roads bypassing Congress as usual, and defying the wishes of the American people - which looked like the action of a Third World dictator who thinks representative government is a nuisance and can be ignored.**

**Congress made its wishes emphatically clear in 2007 when it voted to continue our ban on Mexican trucks: the House roll-call vote was 411 to 3 and the Senate was 75 to 23.**

**But what difference does *that* vote make, with OPEN BORDERS?**

**It's like an American Red Dawn!  
But - *Where is Congress?***

I guess they *think* if they hold Obama accountable for his unconstitutional actions - it will give others the ability to do the same!

This deal, as with NAFTA, is a JOB KILLER for Americans and certainly a DIRECT HIT on U.S. TRUCK DRIVERS - because it helps big-business interests cut their costs by hiring cheaper Mexican drivers.

It is also an attack on small business (i.e., the owner-operated and independent truck drivers) - which constitutes the big majority of U.S. trucks.

Affecting the areas of transportation, education, immigration, law enforcement, regulations, banking, and agriculture, military and manufacturing, is there *anything* left?

Tell me again the differences...

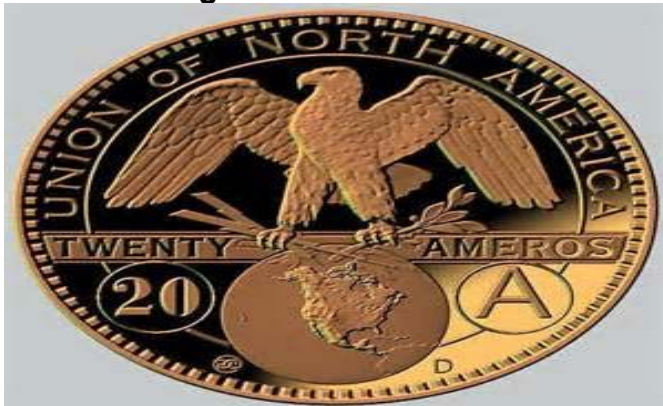

between the Republican and Democratic politicians?

They all have their games, each side taking turns controlling our every walk of life with the End of the Game:

Controlling the World collectively.

One last thing! - The “Amero”!

(an artist's concept)

This is what the new currency is *supposed to be* - if and when the NAU is ever finalized.

If America adopts a single currency such as the “Amero” with Canada and Mexico...

*America would no longer control their OWN monetary policy.*

The proposed governing structure of the NAU would be composed of a panel of 15 appointees, with 5 representing each of the three countries.

This would give Mexico's population of 108 million,  
and Canada's population of 33 million...

An Equal Voice in the Decisions...

made by over 300 million citizens of the United States.

Critics claim a "North American Union" would be a paramount threat to our nation's sovereignty, as it would subordinate both federal and state governmental authority to the control of one super-national authority. Gone would be all of the democratic underpinnings of our republic, replaced with a ruling oligarchy of appointed bureaucrats. The Constitution would no longer be the supreme law of the land; the decisions of government elites would now hold that honor.

**WHAT CAN I DO?**

There is HOPE. Go to the John Birch Society web site and utilize their anti-NAU and anti-NAFTA campaign tools and resources.

Rep. Virgil Goode R-VA introduced H.C.R.40 in January 2007 in Congress to block the American Free Trade Agreement (NAFTA), Superhighway System, or entering into a North American Union with Mexico and Canada. Unfortunately, it died in Committee.
